 **PBS GROUP**

## Who are we?

PBS GROUP is an international engineering company with over 200 years of heritage in precision manufacturing. We combine expertise across multiple industries through our subsidiaries, specializing in aerospace technology, precision casting, energy solutions, and cryogenic applications. Our comprehensive portfolio includes the development and manufacture of aircraft engines, auxiliary power units (APU), environmental control systems (ECS), and advanced cryogenic equipment.

## Main Features

Our auxiliary power units provide compressed air and electrical power across a wide range of operating conditions. Thanks to their exceptional reliability, PBS APUs have achieved a leading position globally in the category of units up to 100 kW.

- › EASA certificated
- › Continuous operation for 6 hours
- › Long service life and easy maintenance
- › High reliability in extreme conditions
- › Highly resistant ECU, increased flight envelope
- › 9+ years TBO

## Customer Support and Services

We offer a comprehensive range of customer support and services based on our extensive experience. Our technical support includes technician training programme, which can be held either at the PBS facility or at the customer's site. We also provide detailed service and product documentation with regular updates, online technical support and on-site assistance to ensure seamless operation and customer satisfaction.

## One-Stop-Shop Company

We provide complete solutions through our extensive in-house capabilities. From initial design and R&D through to production and testing, we maintain control of 90% of our manufacturing processes. Our modern testing facilities, combined with customized solutions and flexible customer service, ensure comprehensive product lifecycle support. Through our subsidiaries, we offer integrated solutions that meet the highest standards of precision engineering and manufacturing excellence.

## Maintenance, Repair, and Overhaul

- › Repairs of APU/components on-site
- › Repairs of APU/components at PBS facility
- › TBO extensions on-site
- › TBO extensions on-line
- › General overhauls

## Certification

# PBS APU SPARK40

## Technical Parameters

PARAMETERS	METRIC	IMPERIAL
Electrical power output	40 kVA	40 kVA
Bleed air extraction	27 kg/min	59.5 lb/min
Specific fuel consumption	60 kg/h	132.3 lb/h
Dry weight	72.0 kg	158.7 lb
Max. operating altitude	8,000 m	26,247 ft
